

# **China's Comments on NEACAP**

Oct.13, 2017, Busan, ROK

# General Comments

- NEACAP should take into consideration different development stages and socio-economic situations of the 6 participating countries.
- NEACAP should aim at promoting information sharing, policy and experience exchange.
- NEACAP should take into account the resources condition when designing and making plans.

# Specific Comments on TOR

- **Introduction**

*Add: countries in the sub-region have taken various measures to abate air pollution and have achieved substantial progress.*

- **Geographic scope and target pollutants**

Delete: The domain for technical modeling and assessment is to be consulted with NEACAP member States.

Seek clarification: step-wise approach
