

# Concluding Meeting of the NEASPEC Project on Nature Conservation in Transboundary Areas in North East Asia 21-23 July 2012 Vladivostok, Russian Federation

### Background

Since late 2010, NEASPEC has been implementing the project on "Development of the Cooperation Mechanisms for Nature Conservation in Transboundary Areas in North-East Asia". In particular, the project aims to develop a framework for transboundary cooperation mechanism in the Lower Tumen River Basin, home to both Amur Tiger and Amur Leopard, encompassing parts of China, Democratic People's Republic of Korea and the Russian Federation. In this regard, NEASPEC has facilitated stakeholders' review and consultation processes on the state and protection of the target species with a particular focus on bi-/multilateral cooperation.

The processes have produced a draft review of socio-economic and environmental challenges in protecting flagship species, and a draft cooperation framework for the Amur tiger and leopard conservation in Tumen River area. The draft documents are subject to review by the concluding meeting for the finalization and submission to the 17<sup>th</sup> Senior Officials Meeting of NEASPEC to be held in October 2012 in China. Furthermore, the concluding workshop will be held together with a two-day field trip to facilitate knowledge sharing between Chinese and Russian experts on management measures for protected areas and field techniques for the conservation the Amur tiger and leopard.

#### **Objectives of the EGM**

- Disseminate the major outcomes of the project;
- Review progresses on policies and programmes for promoting nature conservation in the transboundary areas in North-East Asia
- Discuss the framework of multi-/bilateral cooperation for nature conservation in the Tumen River area;
- Identify the priority areas of work for possible new NEASPEC projects on nature conservation.

#### Organizers

- UNESCAP SRO-ENEA
- WWF Russia

## **Programme (Tentative)**
