

Comments on Russian Federation's Proposal

SY Cho

Inha University

Republic of Korea

General Comments

- Considering on a limited budget and time, it is recommended to review the existed initiatives and studies and utilize them as much as possible
- Taking benefits of rich resources in the region, a multi-model approach rather than a single model approach is preferable

List of Pre-existed Studies

- LTP's modeling results
- MICS Asia studies
- EMEP works on North Eastern Studies
- Integrated Assessment Model
- Papers presented in “Air Quality Modeling in Asia 2011”, which will be held during 24-25, Jan., 2011, in Korea
