

NEASPEC Expert group meeting on desertification and land degradation and climate change: subregional approaches and activities

Date: 19-20 June 2023

Desertification and land degradation (DLD) pose significant challenges to achieving sustainable development goals as they affect soil, air and water quality and threaten forest and woodlands, pasture, rangelands and irrigated and rain-fed croplands. In recognition of the severe threat and impact of DLD on the economy, human well-being, and the environment, NEASPEC member States have developed various policies and programmes to combat DLD and established networks and partnerships to take joint actions in affected countries and areas.¹

In line with these efforts, NEASPEC facilitated capacity building, knowledge sharing and training for member States between 2011 and 2013. Following these initiatives, the North-East Asia Multi-Stakeholder Plan on Combating DLD (NEAMSP) was launched at the SOM-20 in 2016.²

Acknowledging the establishment of the Northeast Asia Network for Desertification, Land Degradation and Drought (DLDD-NEAN) in 2012, member States decided to re-orient the work of NEASPEC and agreed on the following, as reflected in the [NEASPEC Strategic Plan 2021-2025](#).

- Conduct a stock-taking study on the interlinkage of climate change mitigation & DLD;
- Develop a subregional approach / organize activities on nature-based solutions;
- Hold stakeholder dialogues on the interlinkages and nature-based solutions.

Objectives

In line with the Strategic Plan 2021-2025, the expert group meeting aims to develop a subregional approach and propose activities on DLD under NEASPEC for consideration by member States. To facilitate the discussion, the findings of the stock-taking study on the interlinkages of DLD and climate change and the stakeholder survey result will be presented as well. .

Expected Participants

Government officials, experts from international organizations and UN agencies, research institutes, and civil society organizations in NEASPEC member countries with a focus on DLD and climate change

Programme

19 June 2023 (Monday)	
Time	Programme
09:30-10:00	Registration
10:00-10:30	<p>Opening session</p> <ul style="list-style-type: none"> • Remarks by Mr. Ganbaatar Myagmarjav, Deputy Minister of the Ministry of Environment and Tourism • Remarks by Mr. Ganbold Baasanjav, Head of UN-ESCAP Subregional Office for East and North-East Asia • Tour de Table • Introduction of the meeting
10:30-12:00	<p>Session 1: Reviewing DLD in North-East Asia: current status, trends and impacts</p> <p>In this session, experts will share insights on the status, trends and impacts of DLD faced by countries in North-East Asia and discuss policies in place to prevent DLD.</p> <p>Moderator: Ms. Tserendulam Shagdarsuren, Director-General of the Climate Change Department, Ministry of Environment and Tourism, Mongolia</p> <p>Presenters:</p> <ul style="list-style-type: none"> • Mr. Victor Squires, Guest Professor, Chinese Academy of Forestry • Ms. Haiying Feng, Research Professor, Beibu Gulf University • Mr. Andrey Medvedev, Head of GIS and Remote Sensing Laboratory, Institute of Geography, Russian Academy of Sciences • Mr. Ajai, Group Director and Professor (retired), Space Applications Centre, Indian Space Research Organization • Mr. Gomboluudev, Scientific Secretary of Information & Research Institute of Meteorology, Hydrology & Environment of Mongolia <p>Discussion</p>
12:00-13:30	Lunch break

13:30–15:00	<p>Session 2: Identifying the Challenges: Drivers and Risks of DLD in North-East Asia</p> <p>With the aim to identify key issues to be addressed by NEASPEC, the session will discuss the main drivers of DLD in North-East Asia and future risk factors such as climate change, among others.</p> <p>Moderator: Ms. Xiaoxia Jia, Programme Officer, Science Technology and Innovation, UNCCD</p> <p>Presenters:</p> <ul style="list-style-type: none"> • Mr. Oyunsanaa Byambasuren, Director-General, National Forest Agency of Mongolia • Mr. SungEun Kim, Economic Affairs Officer, UNESCAP Subregional Office for East and North-East Asia • Mr. Young-keun Lee, Senior Researcher, National Institute of Forest Science, Republic of Korea • Ms. Tatiana Kuderina, Scientific and technical correspondent of Russian Federation for the UNCCD <p>Discussion</p>
15:00-15:30	Break
15:30–17:20	<p>Session 3: Collaborating for change: Formulating a subregional approach and potential activities for consideration of member States</p> <p>The session will discuss tentative NEASPEC activities to address DLD in North-East Asia, avoiding duplications and creating synergies with other existing platforms such as DLDD-NEAN.</p> <p>Moderator: Mr. SungEun Kim, Economic Affairs Officer, UNESCAP Subregional Office for East and North-East Asia</p> <p>Presenters:</p> <ul style="list-style-type: none"> • Mr. Junkyo Lee, Program Officer, Korea Forest Service • Ms. Xiaoxia Jia, Programme Officer, Science Technology and Innovation, UNCCD • Ms. Emily Marie Lim, Program Officer, Asian Forest Cooperation Organization <p>Discussion on tentative NEASPEC activities</p>
17:20–17:30	Closing
20 June 2023 (Tuesday)	
09:00-17:00	Field visit
