

Item 5(a)- Annex IV.

Activity plan for air pollution in 2025

A. Policy Cooperation: Policy Analysis Report and Policy Dialogue

Approach and modality

- **Policy Analysis Report:** Share the best policy practices and support policy exchange and collaboration among member States.
- **Policy Dialogue:** Engage policymakers and stakeholders from member States to facilitate productive discussions and actions in shaping the NEACAP 2026-2030 Work Plan.

Key Activities

- **A.1: Publication of the Policy Analysis Report (January 2025):** Upon approval of the final draft by SOM-27, the secretariat will hire a copy editor, contract a vendor for layout design, and release the e-copy for distribution (Budget: USD 8,000).
- **A.2: Organization of the 2nd Policy Dialogue (Q2, pending SOM-27 decision):** Following SPC-6 recommendations, this event will focus on identifying priorities for the NEACAP 2026-2030 Work Plan (Budget: USD 22,500).

B. Capacity Building

Approach and modality

- Targeting institutions or officials to enhance their skills in effectively assessing or addressing air quality challenges.

Key Activities

- **Customized Training Programmes:** Based on proposals from countries or SPC members or technical centers, tailored training programmes will be developed and implemented, including budget estimations (Budget: USD 11,250)

C. Knowledge and Information Sharing

Approach and modality

- Facilitate the exchange of experiences and the sharing of knowledge on recent research, policy updates, and advancements in air quality management technologies.

Key activity

- *Symposium*: An outreach activity to promote the key messages from the Policy Analysis Report (Second half) (Budget: USD 11,250).

D. SPC meeting and other activities

- *SPC-7 Meeting (Q2)*: A face-to-face meeting in tentatively in May, with online intersessional meetings to draft NEACAP 2026-2030 Work Plan (Budget: USD 11,250).
